CHIEF EXECUTIVE OFFICER

DIRECTOR

Pakistan Microfinance Investment Company Limited  
Notes to the financial statements  
For the year ended 31 December 2018

**1. CORPORATE AND GENERAL INFORMATION**

**1.1. Legal status and operations**

Pakistan Microfinance Investment Company Limited ("the Company") was incorporated on 10 August 2016 under the Companies Ordinance, 1984 (now the Companies Act, 2017) as a public unlisted company. The Company is licensed to carry out investment finance services as a Non-Banking Finance Company ("NBFC") under Section 282C of the Companies Ordinance, 1984, Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 ("the NBFC Rules") and Non-Banking Finance Companies and Notified Entities Regulations 2008 ("the NBFC Regulations").

The Company is setup jointly by Pakistan Poverty Alleviation Fund (PPAF), Karandaaz Pakistan and KfW, a German development company, to catalyze and lead the next phase of growth in the microfinance sector of Pakistan. The purpose of the Company is to provide a wide range of financial services, including wholesale funding to microfinance institutions and microfinance banks to promote financial inclusion in Pakistan in order to alleviate poverty and contribute to broad based development.

The registered office of the Company is situated at 21<sup>st</sup> floor, Plot 55 C, Ufone Tower, Jinnah Avenue (Blue Area), Islamabad, Pakistan.

The Pakistan Credit Rating Agency (PACRA) has maintained the Company a rating of 'AA' (long term credit rating) and 'A1+' (short term credit rating) on 31 December 2018.

**1.2. Summary of significant transactions and events**

The Company's financial position and performance was particularly affected by the following events and transactions during the year:

- Due to the first time application of financial reporting requirements under the Companies Act, 2017 including disclosure and presentation requirements of the fifth schedule of the Companies Act, 2017, certain additional disclosures are made in these financial statements to comply with the requirements of the Act.
- The Company obtained Rs. 1.9 billion in the form of long term loans from banks.
- The Company obtained subordinated loans amounting to Rs. 6.8 billion.

**2. BASIS OF PREPARATION**

**2.1. Statement of compliance**

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards ("IFRS Standards"), issued by the International Accounting Standards Board ("IASB") as notified under the Companies Act, 2017;
- The Non Banking Finance Companies Rules, 2003 and the Non Banking Finance Companies and notified entities Regulations, 2008 (here-in-after mentioned as 'the NBFC rules and NBFC regulations') ;
- Directives issued by the Securities and Exchange Commission of Pakistan ("SECP"); and
- Provisions of and directives issued under the Companies Act, 2017.

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

Where the requirements of the Companies Act, 2017, the NBFC rule sand NBFC regulations and the directives issued by the SECP differ with the requirements of IFRSs, the requirements of the Companies Act, 2017, the NBFC Rules and NBFC Regulations, or the requirements of the said directives shall prevail.

The SECP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and International Accounting Standard (IAS) 40, 'Investment Property' through Circular No. 19 dated 13 August 2003 for Non-Banking Finance Companies (NBFCs) providing investment finance services, discounting services and housing finance services, with the direction that such companies shall continue observing the State Bank of Pakistan's BSD Circular Letter No. 11 dated 11 September 2002, regarding the application of said IASs, till further decision. In addition, the SECP has also deferred the application of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' through SRO 411(1) / 2008 on such Non-Banking Finance Companies as are engaged in investment finance services, discounting services and housing finance services.

Details of the Company's accounting policies are included in Note 3.

## 2.2 Basis of measurement and preparation

### 2.2.1 Accounting convention

These financial statements have been prepared under historical cost convention except for the liability related to staff retirement gratuity which is stated at present values determined through actuarial valuation.

### 2.2.2 Functional and presentation currency

These financial statements are presented in Pakistan Rupees (Rupee or PKR), which is the Company's functional currency. All amounts have been rounded to the nearest rupee, unless otherwise indicated.

## 2.3 Use of estimates and judgments

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Information about assumptions and estimation uncertainties or where judgment was exercised in application of accounting policies that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the year ended 31 December 2018 is included in the following notes:

- (i) Note 3.1 and 4 – useful life, reassessed value, residual value and depreciation method of property and equipment;
- (ii) Note 3.2 and 5 - useful lives, residual values and amortization method of intangible assets;
- (iii)
- (iv) Note 3.4 and 18 - measurement of defined benefit obligations: key actuarial assumptions;
- (v) Note 22 recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources; and;
- (vi) Note 3.8, 13 and 28 - recognition of deferred tax assets and estimation of income tax provision

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

### 2.4 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair value, both for financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. Management has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

Management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of the approved accounting standards as applicable in Pakistan, including the level in the fair value hierarchy in which the valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows;

**Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2:** inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

**Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

### Standards, interpretations and amendments to the approved accounting standards

The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning on or after 01 January 2019:

- IFRIC 23 'Uncertainty over Income Tax Treatments' (effective for annual periods beginning on or after 1 January 2019) clarifies the accounting for income tax when there is uncertainty over income tax treatments under IAS 12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax. The application of interpretation is not likely to have an impact on Company's financial statements. The Company is currently in the process of analyzing the potential impact of changes required.
- IFRS 15 'Revenue from contracts with customers' (effective for annual periods beginning on or after 1 July 2018). IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 'Revenue', IAS 11 'Construction Contracts' and IFRIC 13 'Customer Loyalty Programmes'. The Company is currently in the process of analyzing the potential impact of changes required in revenue recognition policies on adoption of the standard.

*LCM*

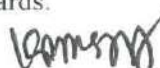

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

- IFRS 9 'Financial Instruments' and amendment – Prepayment Features with Negative Compensation (effective for annual periods beginning on or after 1 July 2018 and 1 January 2019 respectively). IFRS 9 replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. As stated above, the SECP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' through Circular No. 19 dated 13 August 2003, therefore it is not clear as of now whether the IFRS 9 would be applicable to the Company or not.
- IFRS 16 'Leases' (effective for annual period beginning on or after 1 January 2019). IFRS 16 replaces existing leasing guidance, including IAS 17 'Leases', IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC-15 'Operating Leases- Incentives' and SIC-27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'. IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard i.e. lessors continue to classify leases as finance or operating leases. The Company is currently in the process of analyzing the potential impact of its lease arrangements that will result in recognition of right to use assets and liabilities on adoption of the standard.
- Amendment to IAS 28 'Investments in Associates and Joint Ventures' - Long Term Interests in Associates and Joint Ventures (effective for annual period beginning on or after 1 January 2019). The amendment will affect companies that finance such entities with preference shares or with loans for which repayment is not expected in the foreseeable future (referred to as long-term interests or 'LTI'). The amendment and accompanying example state that LTI are in the scope of both IFRS 9 and IAS 28 and explain the annual sequence in which both standards are to be applied. The amendments are not likely to have an impact on Company's financial statements.
- Amendments to IAS 19 'Employee Benefits' - Plan Amendment, Curtailment or Settlement (effective for annual periods beginning on or after 1 January 2019). The amendments clarify that on amendment, curtailment or settlement of a defined benefit plan, a company now uses updated actuarial assumptions to determine its current service cost and net interest for the period; and the effect of the asset ceiling is disregarded when calculating the gain or loss on any settlement of the plan and is dealt with separately in other comprehensive income. The application of amendments is not likely to have an impact on Company's financial statements.
- Amendment to IFRS 3 'Business Combinations' – Definition of a Business (effective for business combinations for which the acquisition date is on or after the beginning of annual period beginning on or after 1 January 2020). The IASB has issued amendments aiming to resolve the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The amendments clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments include an election to use a concentration test. The standard is effective for transactions in the future and therefore would not have an impact on past financial statements.
- Amendments to IAS 1 *Presentation of Financial Statements* and IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* (effective for annual periods beginning on or after 1 January 2020). The amendments are intended to make the definition of material in IAS 1 easier to understand and are not intended to alter the underlying concept of materiality in IFRS Standards. In addition, the IASB has also issued guidance on how to make materiality judgements when preparing their general purpose financial statements in accordance with IFRS Standards.

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

- Annual Improvements to IFRS Standards 2015–2017 Cycle - the improvements address amendments to following approved accounting standards:
- IFRS 3 Business Combinations and IFRS 11 Joint Arrangement - the amendment aims to clarify the accounting treatment when a company increases its interest in a joint operation that meets the definition of a business. A company remeasures its previously held interest in a joint operation when it obtains control of the business. A company does not remeasure its previously held interest in a joint operation when it obtains joint control of the business.
  - IAS 12 *Income Taxes* - the amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognized consistently with the transaction that generates the distributable profits.
  - IAS 23 *Borrowing Costs* - the amendment clarifies that a company treats as part of general borrowings any borrowing originally made to develop an asset when the asset is ready for its intended use or sale.

The above amendments are effective from annual period beginning on or after 1 January 2019 and are not likely to have an impact on Company's financial statements.

### 3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements except for the change as indicated below:

The Companies Act, 2017 specified certain additional disclosures to be made in the financial statements. The Company has presented the required disclosures in these financial statements to comply with the requirements of the Act. However, there was no change in the reported amounts of assets, liabilities, profit and other comprehensive income due to this change.

#### 3.1 Property and equipment

##### 3.1.1 Owned

###### *Recognition and measurement*

Items of property and equipment are measured at cost, which includes capitalized borrowing costs (if any), less accumulated depreciation and any accumulated impairment losses except for capital work in progress and advances for capital expenditures which are stated at cost less impairment loss, if any. Cost comprises of purchase price and other directly attributable costs less refundable taxes.

Capital work in progress and advances for capital expenditures are transferred to the respective item of property and equipment when available for intended use.

If significant parts of an item of property and equipment have different useful lives, then they are accounted for as separate items (major components) of property and equipment. Gain or loss on disposal of an item of property and equipment is determined by comparing the proceeds from disposal with the carrying amount of property and equipment and is recognized in profit or loss.

*veer*

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

### *Subsequent expenditure*

Subsequent expenditure are included in the assets carrying amount or recognized as separate asset only if it is probable that the future economic benefits associated with the expenditure will flow to the Company. The carrying amount of the replaced part is derecognised. All other repairs and maintenance is charged to the profit or loss.

### *Depreciation*

Depreciation is calculated to charge the cost of items of property and equipment less their estimated residual values using the straight line method, and is generally recognized in profit or loss at rates given in note 4 to these financial statements. Capital work in progress is not depreciated.

Depreciation on additions to property and equipment is charged on pro-rata basis from the month in which property and equipment is acquired or capitalized while no depreciation is charged for the month in which property and equipment is disposed off / derecognized.

The Company reviews the residual values and useful lives of property and equipment on a regular basis. Any change in such estimates in future years might affect the carrying amounts of the respective items of property and equipment with a corresponding effect on the depreciation charge and impairment.

## **3.2 Intangible assets**

### *Recognition and measurement*

Intangible assets with finite useful life are stated at cost less accumulated amortization and impairment losses, if any.

### *Subsequent expenditure*

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands (if any), is recognized in the profit or loss as incurred.

### *Amortization*

Amortization of intangible assets, having finite useful life, is charged by applying straight line method, so as to charge the cost of assets at amortization rate as mentioned in note 5 to the financial statements. Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

## **3.3 Reverse repurchase agreements**

Transactions of reverse repurchase of investment securities are entered into at contracted rates for specified periods of time. Such investments are purchased with a corresponding commitment to resell at a specified future date (reverse repo) and are not recognized in the balance sheet as investment; amounts paid under these agreements are recorded as lendings. The difference between purchase and resale price is accrued as return from lendings over the life of the reverse repo agreement.

*Benjamin*

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

### 3.4 Employee benefits

The accounting policies for employee benefits are described below:

#### 3.4.1 Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

#### 3.4.2 Defined contribution plan – Provident fund

The Company operates a defined contribution provident fund scheme for permanent employees. Contributions to the fund are made monthly by the Company and employees at an agreed rate of salary, the fund is managed by its Board of Trustee. The contributions of the Company are charged to profit or loss.

#### 3.4.3 Defined benefit plans

The Company operates the following defined benefit plans:

##### Gratuity

The Company operates a defined benefit plan comprising an unfunded gratuity scheme covering all eligible employees completing the minimum qualifying period of service as specified by the scheme. Annual provisions to cover the obligations under the scheme are based on actuarial estimates and are charged to profit or loss. Actuarial valuations are carried out by a qualified actuarial expert using the Projected Unit Credit (PUC) Actuarial Cost Method. Net markup expense and other expenses related to defined benefit plan is recognized in profit or loss.

The present value of the obligation for gratuity depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the charge for the year include the discount rate, expected increase in eligible salary and mortality rate as per note 18.3. Any changes in these assumptions will impact the carrying amount of obligations for gratuity.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses are recognised immediately in statement of other comprehensive income. The Company determines the net interest expense on the net defined benefit liability for the year by applying the discount rate used to measure the defined benefit liability at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the year as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plan are recognised in profit or loss.

##### Compensated leave absences

The Company operates defined benefit plan comprising an unfunded compensated leave absences scheme covering all eligible employees as specified in the policy of the Company.

The Company recognises provision for compensated absences on the unveiled balance of privilege leaves of all its eligible employees.

### 3.5 Financial instruments

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. These are derecognized when the Company ceases to be the party to the contractual provisions of the instrument.

100mm

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

All financial assets and liabilities are initially measured at cost which is the fair value of the consideration given and received respectively. These financial assets and liabilities are subsequently measured at fair value, amortized cost or historical cost as the case may be.

Other particular recognition methods adopted by the Company are disclosed in the individual policy statements associated with each item of financial instruments.

### Financial Assets

Financial assets are cash and balances with banks, investments, financing and other receivables. Financing are stated at their nominal value as reduced by appropriate provisions against non-performing financing, while other financial assets excluding investments are stated at cost. Investments are recognized as per note 3.13.

### Financial Liabilities

Financial liabilities are classified according to the substance of the contractual arrangement entered into. Financial liabilities include subordinate loans, loans and borrowings, short term borrowings and other liabilities which are stated at their nominal value. Financial charges are accounted for on accrual basis.

Any gain or loss on the recognition and de-recognition of the financial assets and liabilities is included in the profit or loss for the year in which it arises.

### Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the date on which the derivative contract is entered into and are subsequently re-measured at fair value using valuation techniques. All derivative financial instruments are carried as assets when fair value is positive and liabilities when fair value is negative. Any change in the fair value of derivative financial instruments is taken to the profit or loss.

### Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities and tax assets and tax liabilities are only off-set and the net amount is reported in the financial statements when there is a legally enforceable right to set off the recognized amount and the Company intends either to settle on net basis or to realize the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also off-set and the net amount is reported in the financial statements.

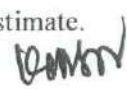

### 3.6 Share capital and dividend

Ordinary shares are classified as equity and recognized at their face value. Dividend distribution to the shareholders is recognized as liability in the period in which it is declared.

### 3.7 Provisions

A provision is recognized in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax discount rate that reflects current market assessment of time value of money and risk specific to the liability.

Provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

# Pakistan Microfinance Investment Company Limited

Notes to the financial statements

For the year ended 31 December 2018

## 3.8 Taxation

Income tax expense comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to an item recognized directly in equity or other comprehensive income in which case it is recognized in equity or other comprehensive income.

### *Current tax*

Current tax comprises the expected tax payable or refundable on the taxable income or loss for the year and any adjustment to the tax payable or refundable in respect of previous years. The amount of current tax payable or refundable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. Current tax assets and liabilities are offset if certain criteria are met. The charge for current taxation is based on taxable income at current rates of taxation enacted or substantially enacted at the reporting date, after taking into consideration available tax credits, rebates and tax losses, if any.

### *Deferred tax*

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for:

- temporary differences on initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on business plans for the Company and the reversal of temporary differences. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves. Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantially enacted at the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset if certain criteria are met.

The Company takes into account the current income tax laws and decisions taken by the taxation authorities. Instances where the Company's view differs from the income tax department at the assessment stage and where the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

## 3.9 Foreign currency transactions and translation

Transactions in foreign currencies are translated into Pak Rupee at exchange rate on the date of transaction. All monetary assets and liabilities in foreign currencies are translated into Pak Rupee at the rate of exchange approximating those ruling at the reporting date. Foreign exchange gains and losses resulting from the

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

settlement of such transactions and from the translation at the year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in profit or loss.

### 3.10 Finance income and finance cost

Finance income comprises profit on deposit accounts. Markup income is recognized as it accrues in profit or loss, using effective markup method.

Finance costs comprise markup expense on subordinated loans, loans borrowings and bank charges. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in profit or loss using effective markup method.

### 3.11 Revenue recognition

#### Mark-up / income on financing

Markup income / return on financing are recognized on a time proportion basis using the effective markup method except the markup income / return on non-performing financing which is recognized on a receipt basis in accordance with the requirements of the NBFC rules and NBFC regulations issued by the SECP. Return / markup on rescheduled / restructured financing is recognized as permitted by the aforementioned regulations, except where, in the opinion of the management, it would not be prudent to do so.

#### Income from investment

Mark-up / return on investments is recognized on time proportion basis using effective interest method. Where debt securities are purchased at premium or discount, the related premiums or discounts are amortized through the profit or loss over the remaining period of maturity of said investment. Gain or loss on sale of investment is accounted for in the period in which the sale occurs.

#### Service fee

Service fee is taken to the profit or loss when the services are provided and when right to receive the fee is established.

#### Income on bank deposits

Return on bank deposits are recognized on time proportionate basis.

### 3.12 Grant income

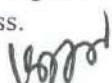

#### Restricted grant

Grant received for specific purposes are classified as restricted / deferred grant. Such grant is transferred to statement of profit or loss as grant income to the extent of actual expenditure incurred there against. Expenditures incurred against committed grant but not received is accrued and recognized in income and is reflected as grant receivable only if conditions of agreement are met. Unspent portion of such grant are reflected as restricted / deferred grant in the statement of financial position.

### 3.13 Investments

The investments of the Company, upon initial recognition, are classified as held-for-trading, held-to-maturity or available-for-sale, as appropriate.

Investments (other than held-for-trading) are initially measured at fair value plus transaction costs associated with the investments. Held-for-trading investments are initially measured at fair value and transaction costs are expensed out in the profit or loss.

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

Purchase and sale of investments that require delivery within the time frame established by regulation or market convention is recognised at the trade date, which is the date the Company commits to purchase or sell the investment.

### **Held for trading**

These represent securities acquired with the intention to trade by taking advantage of short-term market/ interest rate movements. After initial measurement, these are marked to market and surplus/ deficit arising on revaluation of 'held for trading' investments is taken to profit or loss.

### **Held to maturity**

Investments with fixed maturity, where management has both the intent and the ability to hold till maturity, are classified as held to maturity. Subsequent to initial recognition at cost, these investments are measured at amortized cost, less provision for impairment in value, if any, and amortized cost is calculated taking into account effective interest rate method. Profit on held to maturity investments is recognized on a time proportion basis taking into account the effective yield on the investments.

Premium or discount on acquisition of held to maturity investments is amortized through profit or loss over the remaining period till maturity.

### **Available for sale**

These are investments which do not fall under the held-for-trading and held-to-maturity categories. After initial measurement, such investments are measured at fair value. The surplus / (deficit) arising on revaluation is shown in the statement of financial position in equity.

Provision for impairment in the value of equity securities is made after considering objective evidence of impairment as a result of one or more events that may have an impact on the estimated future cash flows of these investments. A significant or prolonged decline in the value of security is also considered as an objective evidence of impairment. Provision for diminution in the value of debt securities is made as per the Prudential Regulations. In the event of impairment of available for sale securities, the cumulative loss that had been recognized directly in surplus on revaluation of securities on the statement of financial position below equity is thereof removed and recognized in the profit or loss.

## **3.14 Financing**

Financing comprise of installment finance facilities extended to microfinance institutions and banks. Financing are stated net of provision for non-performing financing, if any, determined as per requirements of NBFC rules and regulations, and the policy of the Company. The outstanding principal and mark-up of the financing, payments against which are overdue for 90 days or more are classified as non-performing loans (NPLs). The unrealized interest / profit / mark-up / service charges on NPLs is suspended and credited to interest suspense account. Further the NPLs are classified into following categories as prescribed in the Regulations.

### **Other assets especially mentioned**

These are financing, payments against which are overdue for 90 days or more but less than 180 days.

### **Substandard**

These are financing, payments against which are overdue for 180 days or more but less than a year.

### **Doubtful**

These are financing, payments against which are overdue for one year or more but less than 1.5 years.

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

### Loss

These are financing, payments against which are overdue for 1.5 years.

In accordance with the Regulations, the Company maintains specific provision of outstanding principal net of liquid collaterals at the following rates:

Other assets especially mentioned Substandard	Nil
Substandard	25% of outstanding principal net of liquid collaterals
Doubtful	50% of outstanding principal net of liquid collaterals
Loss	100% of outstanding principal net of liquid collaterals

In addition to above, a general provision is maintained at 1% - 1.5% (31 December 2017: 1%) of the outstanding balance of financing net of specific provision; based on the internal risk rating of the individual borrowers.

### 3.15 Impairment

#### 3.15.1 Financial assets:

Financial assets not classified at fair value through profit or loss are assessed at each reporting date to determine whether there is objective evidence of impairment.

Objective evidence that financial assets are impaired includes default or delinquency by a debtor, restructuring of an amount due to the Company on the terms that the Company would not consider otherwise and indication that a debtor will enter bankruptcy.

For an investment in an equity security, objective evidence of impairment includes a significant or prolonged decline in its fair value below its cost. For financial assets measured at amortized cost, the Company considers evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets are assessed for impairment. Those found not to be impaired are then collectively assessed for any impairment that has been incurred but not yet individually identified. Assets that are not individually significant are collectively assessed for impairment. Collective assessment is carried out by grouping together assets with similar risk characteristics. In assessing collective impairment, the Company uses historical information on the timing of recoveries and the amount of loss incurred, and makes an adjustment if current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

An impairment loss is calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective markup rate. Losses are recognized in profit or loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss is reversed through profit or loss.

An impairment loss is recognized in profit or loss, and is reversed if there has been a favorable change in the estimates used to determine the recoverable amount.

Umd

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

*For the year ended 31 December 2018*

### **3.15.2 Non-financial assets:**

At each reporting date, the Company reviews the carrying amount of its non-financial assets (other than deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash generating units (CGUs).

The recoverable amount of an asset or CGU is greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amounts of any goodwill allocated to CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

### **3.16 Contingent liabilities**

A contingent liability is disclosed when the Company has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Company; or the Company has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

### **3.17 Cash and cash equivalents**

Cash and cash equivalents comprise cash and bank balances used by the Company in the management of its short-term commitments.

## Notes to the financial statements

For the year ended 31 December 2018

	<u>31 December 2018</u>	<u>31 December 2017</u>
	(Rupees)	(Rupees)
<b>18.2.2 Re-measurement recognised in the statement of other comprehensive income</b>		
Actuarial (gain) on obligation	(1,129,398)	(1,355,787)
Actuarial loss on assets	2,301,510	-
<b>Actuarial loss recognised</b>	<u>1,172,112</u>	<u>(1,355,787)</u>

The latest actuarial valuation was carried out on 31 December 2018 using projected unit credit method.

### 18.2.3 Key Actuarial assumptions

The latest actuarial valuation was carried out on 31 December 2018 using the projected unit credit method with the following assumptions

	<u>31 December 2018</u>	<u>31 December 2017</u>
	(Rupees)	(Rupees)
Discount rate	13.75%	10.75%
Expected increase in eligible salary	13.75%	10.75%
Duration (years)	14.96	15.63
Normal retirement age (years)	60	60
Effective salary increase date	01 January 2019	01 January 2018
Mortality rate	SLIC 2001-2005	SLIC 2001-2005

Assumption regarding future mortality has been based on State Life Corporation (SLIC 2001-2005).

### Risks associated with defined benefit plan

#### Salary risk- (linked to inflation risk)

The risk that the final salary at the time of cessation of service is greater than what we assumed. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.

*lgmmn*

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

### Demographic risks

**Mortality risk** - The risk that the actual mortality experience is different than the assumed mortality. This affect is more pronounced in schemes where the age and service distribution is on the higher side.

**Withdrawal risk** - The risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

### 35.4 Measurement of fair values

All financial assets and financial liabilities are initially recognized at fair value of consideration paid or received, net of transaction costs as appropriate. The financial assets and liabilities of the Company approximate their carrying values. A number of Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes based on the following methods.

#### i. Non - derivative financial assets

The fair value of non-derivative financial assets is estimated as the present value of future cash flows, discounted at the market rate of markup at the reporting date. This fair value is determined for disclosure purposes.

#### ii. Non - derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and markup cash flows, discounted at the market rate of markup at the reporting date.

### B FINANCIAL RISK MANAGEMENT

The Company has exposure to following risk from its use of financial instruments.

- Credit risk
- Liquidity risk
- Market risk

#### Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks being faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training, management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Board oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

### 35.5 Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. To manage credit risk the Company maintains procedures covering the application for credit approvals, granting and renewal of counterparty limits and monitoring of exposures against these limits. As part of these processes the financial viability of all counterparties is regularly monitored and assessed.

U.S.A.

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

### i. Concentration of credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

		31 December 2018	31 December 2017
	Note	(Rupees)	(Rupees)
Financing - net	6	20,533,401,250	11,381,040,000
Long term advances and deposits	7	21,672,497	24,080,359
Other receivable		-	1,808,500
Markup accrued - receivable	10	513,952,339	176,059,138
Due from related parties	11	9,256,300	134,892,422
Short-term investments	12	825,000,000	950,000,000
Cash at bank	14	56,356,323	66,726,493
		<u>21,959,638,709</u>	<u>12,734,606,912</u>

Geographically there is no concentration of credit risk. The maximum exposure to credit risk for financial assets at the reporting date by type of counter party is as follows:

	31 December 2018	31 December 2017
	(Rupees)	(Rupees)
Related parties	9,256,300	134,892,422
Banks and financial institutions	21,928,709,912	12,573,825,631
Others	21,672,497	25,888,859
	<u>21,959,638,709</u>	<u>12,734,606,912</u>

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of financial assets. The main components of this allowance are a specific loss component that relates to individually significant exposures. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

### ii- Impairment losses

The Company records general provision against financing at 1% -1.5% of outstanding balance of financing, net of specific provision.

The movement in provision in respect of financing during the year was as follows:

		31 December 2018	31 December 2017
	Note	(Rupees)	(Rupees)
Opening balance		(114,960,000)	-
Provision made during the year	6.3	(115,888,750)	(114,960,000)
Closing balance		<u>(230,848,750)</u>	<u>(114,960,000)</u>

The provision account in respect of financing are used to record impairment losses unless the Company is satisfied that no recovery of the amount owing is possible; at that point the amount considered irrevocable is written off against the financial asset directly.

Based on past experience, the management believes that except as already provided for in these financial statements, no further impairment is required to be recognized against any financial assets of the Company.

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

### 35.6 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, prudent fund management practices and the ability to close out market positions due to dynamic nature of the business. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

#### Exposure to liquidity risk

There were no defaults on loans payable during the year.

The maturity profile of the Company's financial liabilities based on the contractual amounts is as follows:

	Carrying amount	Contractual cash flows	Maturity up to one year	Maturity after one year and up to five years	Maturity after five years
	(Rupees)				
<b>31 December 2018</b>					
Subordinated loans	13,489,638,230	20,242,782,671	2,173,276,126	7,726,562,871	10,342,943,674
Loans and borrowings	1,900,000,000	2,458,440,095	231,262,393	2,096,800,510	130,377,192
Trade and other payables	9,493,327	9,493,327	-	-	-
Markup accrued - payable	290,840,075	290,840,075	-	-	-
	<b>15,689,971,632</b>	<b>23,001,556,168</b>	<b>2,404,538,519</b>	<b>9,823,363,381</b>	<b>10,473,320,866</b>
<b>31 December 2017</b>					
Subordinated loan	6,700,000,000	9,724,466,995	472,995,772	5,216,874,866	4,034,596,357
Trade and other payables	15,138,211	15,138,211	15,138,211	-	-
Markup accrued - payable	89,077,246	89,077,246	-	-	-
	<b>6,804,215,457</b>	<b>9,828,682,452</b>	<b>488,133,983</b>	<b>5,216,874,866</b>	<b>4,034,596,357</b>

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts.

The contractual cash flows relating to subordinated loan have been determined on the basis of expected mark up rates. The mark up rates have been disclosed in note 18 to these financial statements.

### 35.7 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market markup rates or the market price due to change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market.

#### 35.7.1 Foreign currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company has neither dealt in foreign currency transactions during the year nor has any balances receivables / payable in foreign currency at the reporting date; hence at present the Company is not exposed to significant foreign currency risk.

#### 35.7.2 Markup rate risk

The markup rate risk is the risk that the value of the financial instrument will fluctuate due to changes in the market markup rates. The Company has financing and subordinated loan in Pakistan Rupees at variable rates. The financing and subordinated loan has variable rate pricing that is dependent on the Karachi Inter Bank Offer Rate (KIBOR).

# Pakistan Microfinance Investment Company Limited

## Notes to the financial statements

For the year ended 31 December 2018

### i. Exposure to markup rate risk

At the reporting date the markup rate profile of the Company's markup bearing financial instruments was as follows:

	31 December 2018 Effective rate %	31 December 2017 Effective rate %	31 December 2018 (Rupees)	31 December 2017 (Rupees)
<b>Fixed rate instruments</b>				
Financial assets	8 - 9	3.75 - 5.4	881,356,323	1,016,726,493
<b>Variable rate instruments</b>				
Financial assets			20,533,401,250	11,496,000,000
Financial liabilities	KIBOR + 1 to 3.5	KIBOR + 1 to 4.0	(15,389,638,230)	(6,700,000,000)
			5,143,763,020	4,796,000,000

### ii. Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in markup rates at the reporting date would not effect profit or loss account.

### iii. Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in markup rates at the reporting date would have increased / (decreased) markup income by Rs. 75.1 million (31 December 2017: Rs. 42.3 million) and increased / (decreased) markup expense by Rs. 120.1 million (31 December 2017: Rs. 20.7 million). This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for previous year.

### 35.7.3 Other market price risk

The primary goal of the Company's investment strategy is to maximize investment returns on surplus funds. The Company adopts a policy of ensuring to minimize its price risk by investing in securities having sound market performance.
